

Project Profile

Solihull Care Home, West Midlands
60 Bed Residential Care Home

Client : The Royal Star & Garter Homes
Location : Solihull, West Midlands
Contractor : Morgan Ashurst
Architect : Scurr + Partners Limited
Objective : This purpose built home provides care for 60 elderly disabled residents who are all ex service people. Included within these rooms is a dedicated dementia care wing for residents that require specialist care.

"Whiteleaf developed a range to our exact requirements and supplied according to our programme. We are delighted with the furniture and the customer care we received from Whiteleaf"

P. Shaw, Director of Care & Service Development

We are delighted to announce that this home was the winner of the Pinder Design Award for Best Large Care Home 2009

The furniture was specially designed between our in house design department and the Royal S & G Development Team.

- Doors were manufactured to bespoke sizes to fit the built in wardrobe alcoves
- A new design was developed and non standard sizes required due to the very generously proportioned rooms
- Additional buffers were fitted to all furniture
- Oak furniture was supplied to match the profiling beds

PROJECT MANAGEMENT

We are very experienced in the complete project management process and understand the issues that can arise on site – for both new builds and refurbishments – and thus the flexible approach that is often required.

- Furniture designed for your bespoke requirements
